

27HJ710S-W 8MP Surgical Monitor

HEALTHCARE

▶ 27HJ710S-W

27" class (27.0" diagonal)

A DISPLAY OPTIMIZED FOR OPERATING ROOM

The superior detailed picture quality of the LG surgical monitor meets operating room requirements. With its 27-inch IPS 8MP display, the LG surgical monitor improves work efficiency not only by enabling detailed observation but also by displaying multiple imaging applications.

Images on screen are simulated

FEATURES

IPS & sRGB OVER 99% + DEEP RED

- The 27-inch 8MP display with IPS technology offers an outstanding picture quality along with perfect wide viewing angles.

DICOM PART 14 & BRIGHTNESS STABILIZATION

- To ensure the most accurate and consistent shading possible for medical images, LG measures and sets every grayscale tone on the production line to produce a monitor compliant with DICOM Part 14.

DYNAMIC SYNC MODE*

- The LG surgical monitor minimizes input lag with Dynamic Sync so you can catch every single moment in real-time.

*Dynamic Sync Mode is only available to 60Hz input source.

ANTI-REFLECTION & OPTICAL BONDING GLASS

- Optically bonded glass significantly reduces internal reflection between the cover glass and the LCD to enhance accuracy. Improved anti-reflection ability enables displays to look brighter and sharper for the highest image quality.

DUSTPROOF & WATERPROOF

- IP35 rated (front) & IP32 rated (back) panels, gives protection against dust and water that may contact it during an operation.

SPECIFICATIONS

Designed Specifically for the Operating Room

UL Medical Grade Listed

DICOM part 14

Native Display Resolution 3840 x 2160

Contrast Ratio 1000:1

14ms(Typ.) Response Time

Six Axis Control

Brightness Stabilization

VESA™ Compliant Wall Mountable

3-Year Limited Warranty Parts/Labor/Backlight
